

"Sound closest to the live sound of an instrument in the world"

Listen to the sound of 21st century power

A&R Lab listening room, 21st century power supply (patent No. 4126357), AMP, CDP, EMS exciter speaker, LB8EXMKII, choke (L)-less, 21st century power supply constant current excitation power supply,

Adopting a dead mass (MGES) structure、 BOX considering countermeasures for ripple diffraction effect、 It is a listening system.

- **Excitation type speaker is LB8EXMKII, 20cm speaker made by EMS**

BOX is a 70L sealed type that supports ripple diffraction in 2020 (Made by WOODWILL: MGES)

- **You can listen and compare 20th century power supply (conventional power supply equipment), VS, 21st century power supply (Degawa type power supply).AMP, CDP, etc.**

- **Excitation power supply is Degawa type constant current power supply (KANI transformer specification) + excitation regeneration module (PAT 3126184)**

POWER SUPPLY kit for 2nd Generation Series excitation SP, product name RPS-12-1A (Zen specification) DC 12V 1A constant current power supply.

- **CDP is MARANTZ SA-8001, 8005, SA-11S1, DCD-SA10 L, Degawa power supply, the world's best clock, OCXO master clock 0.01PPM CN value over 95db,**

- **●AMP is 21st century power supply chokeless, CPM equipped KT-90pp, AMP, GM-70AMP, etc.**

- ***Line AMP is a Degawa type constant voltage power supply using Arnold's active fader 21st century power supply .**

- ***SONY, TA-E88, 21st century power supply,**
