It also delays rehabilitation and can be dangerous. Approaching and touching macaques is also to be avoided, as they can be aggressive.
- ❖ Please take special precautions with your bags and valuables. The Orangutans and macaques are inquisitive and cheeky which can result in items being stolen and broken.
- ❖ Do not take repellants into the reserve as they are health hazard to the animals should they get hold of them.
- ❖ Do not damage or remove any animal or plant life. The reserve is a protected area, as are the plants and animals within it.
